Ideas for Website, Empathy Map, and Purpose Statement

Calendar Schedule Website

Says:
Calendar apps to schedule your day are either payed or they are not good.

Thinks:
I want to make a simple app to easily plan a schedule for my days.

Does:
It is a calendar where you click on the dates to make a plan for each day, you could also set goals for the week and month.

Feels:
It will help people to stay productive and not procrastinate.

Ideas for the Website:

- Be able to make goals for each day, week, month, and year
- Checklist to see if you have achieved your goals and check them off
- To be able to see all the days, weeks, months, and years and click on them to see your plan for each day, week, month, and year

Purpose Statement:
To help people who want to be more organized make a schedule to help them be more productive throughout each day.
